

GOOD DESIGN

Good design is complicated enough to be intriguing to a target audience but simple enough to be understood. Form follows function.

Nicola Place February 13th 2012 Design 11

I think this is a good design because it is very appealing to the eyes. I think it is very creative and also modern. This has a very small range of people who it would appeal to obviously with it not being your regular coffee table but for the people who either have children or are into new and modern sleek things they would quite enjoy this. Taking the role as a coffee table or a children's work table I feel like it serves its purpose. Being made out of wood I can appreciate the amount of time this must have taken to make sure that the pieces fit perfectly together without any gaps. It has very sleek, straight lines which tend to be on the modern side and less abstract. It's definitely not something an amateur could do, I certainly couldn't. This piece in my eyes can be sophisticated in a adult environment, but it can also be quite tasteful and less sophisticated but more fun in a childish environment.
