## *Activity 4-5: Design Reflection*

---

---

Personal reflections are extremely valuable to learning. Reflecting helps bring order to ideas; to recall high and low points of the process; and to capture, and give relevance to, those fleeting thoughts and feelings that were born or stirred-up during the creative process. Reflections also help individuals to recognize patterns of struggle and to identify procedures that helped turn the struggle into success.

**Please consider the following:**

Our Ad design can be described as:

---

---

---

The design aims to communicate or explore \_\_\_\_\_

---

---

---

I found that my strengths in this project included:

i.

---

---

ii.

---

---

iii.

---

---

---

Name \_\_\_\_\_ Period \_\_\_\_\_ Date \_\_\_\_\_

*Activity 4-5 Design Reflection*

I grew or learned how to:

i.

---

---

ii.

---

---

Skills or understandings I need to develop included:

---

---

---

---

---

If I could do this design over again, I would change it as such:

---

---

---

---

---

---
