

Feng Shui My Space

Using a [Bagua](#) and the [9 Feng Shui Remedies](#), reorganize your room to maximize on the spaces benefits for your life and wellbeing.

[Here is how to feng Shui a room](#)

(<http://www.wikihow.com/Apply-Feng-Shui-to-a-Room>)

1. (planning and reference) Create a rough draft of your room as is before designing it according to feng shui. Include all elements that must be in your room. Consider the elements in each are and how they interact.

2. (project) Using the tool of your choice (E.g. Sketchup, Pages, or Illustrator) make a new floor plan of your room.

You can watch this video on [3 easy steps to apply the bagua](#)

Learning Targets

- The space reflects *feng shui* principles. Consider the elements in each area and how they interact.
- Neatly and clearly, try to get physical elements and walls to a consistent scale. Includes considerations for wall thickness, furniture, windows, & doors.
- Use colour and texture in your mark making to give a look and feel to the space. Ensure the design is well resolved.
- Include a written rationale of the decisions you made. Explain how Feng Shui was used to enhance aspects of your wellbeing. Be specific of at least 5 decisions you made and how they should enhance your wellbeing. Also indicate problems FS may present.
