

Nelson Science 10: Concepts & Connections

Proposed Table of Contents

Unit 1 Sustaining Ecosystems

Unit 1 Overview

Unit 1 Challenge

Getting Started

- 1.1 The Silence of the Frogs
- 1.2 Endangered Species
- 1.3 Value of Wolves
- 1.4 Ecology
- 1.5 Investigation: Schoolyard Ecosystem
- 1.6 Investigation: Natural Ecosystems
- 1.7 Energy Cycles
- 1.8 Career Profile
- 1.9 Carbon Cycle
- 1.10 Nitrogen Cycle
- 1.11 Nutrient Cycles
- 1.12 Pesticides
- 1.13 Case Study: Deforestation
- 1.14 Populations
- 1.15 Biomes
- 1.16 Soil
- 1.17 Investigation: Soil
- 1.18 Logging Forests
- 1.19 Acid Precipitation
- 1.20 Investigation: Acid Precipitation

Unit 1 Summary

Unit 1 Review

Unit 2 Chemical Processes

Unit 2 Overview

Unit 2 Challenge

Getting Started

- 2.1 Classifying Chemicals
- 2.2 How Elements Form Compounds
- 2.3 Ionic Compounds
- 2.4 Polyatomic Compounds
- 2.5 Explore an Issue: Natural vs. Synthetic
- 2.6 Word Equations
- 2.7 Investigation: Measuring Masses in Chemical Changes
- 2.8 Balancing Chemical Equations
- 2.9 Factors That Affect Rates of Reactions
- 2.10 Investigation: Blast Off!
- 2.11 Career Profile: Explosives Expert

- 2.12 Case Study: Food Preservation
- 2.13 Investigation: Recognizing Acids and Bases
- 2.14 Properties of Acids and Bases
- 2.15 The pH Scale
- 2.16 Investigation: pH of Household Products
- 2.17 Case Study: Making Acids and Bases
- 2.18 Investigation: Neutralization Reactions
- 2.19 Case Study: Air Pollution and Acid Precipitation
- 2.20 Investigation: Testing Antacids

Unit 2 Summary

Unit 2 Review

Unit 3 Motion

Unit 3 Overview

Unit 3 Challenge

Getting Started

- 3.1 Progress and Speed
- 3.2 Measurement and Calculation
- 3.3 Investigation: Your Speed
- 3.4 Average Speed
- 3.5 Investigation: Balloon Car Contest
- 3.6 Instantaneous and Constant Speed
- 3.7 Distance-Time Graphs
- 3.8 Investigation: Determining Average Speed
- 3.9 Case Study: Smart Highways
- 3.10 Vectors, Part 1
- 3.11 Vectors, Part 2
- 3.12 Adding Vectors
- 3.13 Adding Displacement Vectors
- 3.14 Velocity
- 3.15 Case Study: Tracking and Position
- 3.16 Speed Comparisons
- 3.17 Defining Acceleration
- 3.18 Speed-Time Graphs for Acceleration
- 3.19 Analyzing Acceleration
- 3.20 Career Profile: Flight Instructor

Unit 3 Summary

Unit 3 Review

Unit 4 Weather Dynamics

Unit 4 Overview

Unit 4 Challenge

Getting Started

- 4.1 A Closer Look at Earth
- 4.2 Investigation: Seasons and the Angle of the Sun
- 4.3 Investigation: What Causes Wind?
- 4.4 Case Study: The First Round-the-World Balloon Flight
- 4.5 The Atmosphere
- 4.6 Modelling the Atmosphere
- 4.7 Circulating Air
- 4.8 Career Profile: Weather Reporter
- 4.9 Investigation: What Makes the Wind Blow?
- 4.10 The Hydrosphere
- 4.11 Major Ocean Currents
- 4.12 Cloud Formation
- 4.13 Investigation: Evaporation of Water
- 4.14 A Global Weather Model
- 4.15 Weather Forecasting Technology
- 4.16 Investigation: Making Instruments to Record Weather
- 4.17 Case Study: Three Days of Canadian Weather
- 4.18 Weather Records and Events
- 4.19 Weather in the News
- 4.20 Explore an Issue: The Human Impact on Global Temperatures

Unit 4 Summary

Unit 4 Review
