

PP (FoP- Relative Motion Sheet)

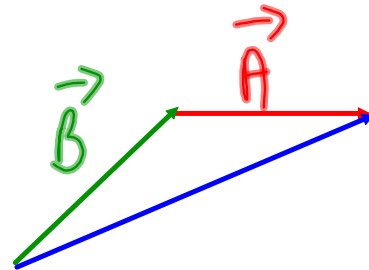

4.

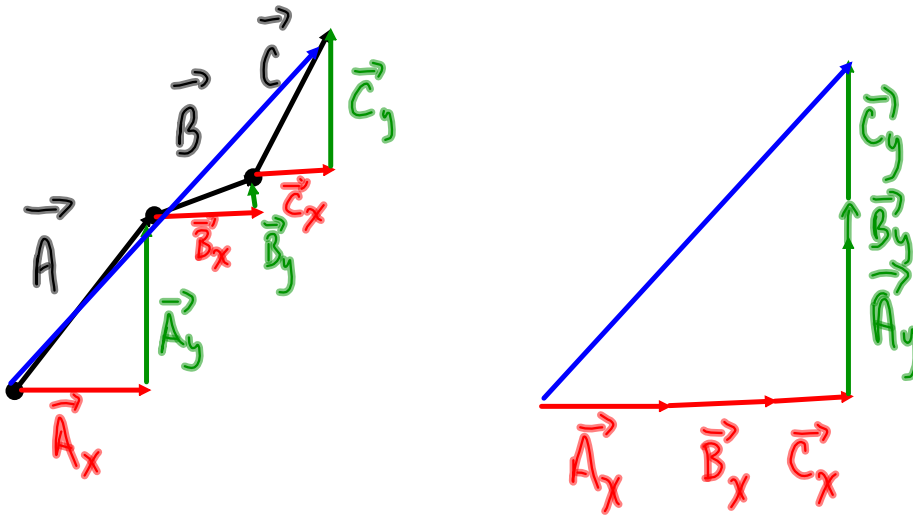

Order of Vector Addition - Does it Matter?

$$\vec{A} + \vec{B} = \vec{B} + \vec{A}$$

## Addition of Vectors Using Components

Use components to add 3 or more vectors.  
 You can also use for adding two vectors that don't form a right triangle instead of using the Law of Cosines | Law of Sines.
