

Title Section

Purpose - The purpose of this experiment was to .....

Background

- background on air resistance + terminal velocity (250 wds)
- preliminary questions (3 refs)

Materials - numbered list

Procedure - numbered list

- past tense / no pronouns

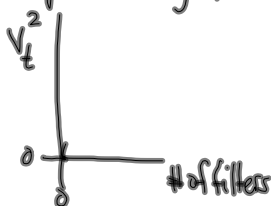

Data / Observations

- sample graphs (d-t, v-t (with stats)), trial?
- data table

# coffee filter	Terminal V			mean	$V_t^2$
	1	2	3		
1					
2					
3					
...					

Discussion of Data

- use the analysis questions to guide you!
- include your GA graph

Sources of Error

Conclusion - answer the purpose / briefly say how you know
