

## **Self In Context Project – Probes for Contextual Space**

**Pick 5 of these questions and explore the answers in your sketchbook with notes and thumbnails.**

1. Imagine a space that you get lost in, how do you get out?
2. Imagine your wildest dream/nightmare – where does this take place?
3. Write down three words that describe heaven to you – what colors represent these moods?
4. What sort of space would you want to be in if you were scared? Hungry? Joyful?
5. Imagine you can't be found on earth – where are you?
6. What environment would you crave if you were an ant? Besides cookie crumbs...
7. If you were an insect what would you call home? Where would you want to be?
8. If you lived on mars, what would your neighborhood look like?
9. Draw a quick thumbnail of a city underwater. Later, refine your sketch with buildings and structures from your own life.
10. What could you find in the clouds? Besides the obvious...
11. If you walked in a junkyard, what could you find?
12. Imagine a creative forest, what sorts of textures are found here?
13. Imagine a new world made of technology (computers, mechanics, hydraulics etc) Where does nature exist here? Where has it gone?
14. If toddlers ran the world, what would cities look like?
