 23. Pen holder
 24. Pencil Case
 25. Waste Paper Basket
 26. Chair

HOW I USED FENG SHUI IN MY ROOM TO ENHANCE THE ASPECT OF MY WELLBEING:

In the Room I designed, I used light and only a few colors, because I feel like the few colors I added are just right and go perfect with the wood objects I used.

Most of the Objects I put in my room have a straight form and aren't really big. There is not a lot of furniture in the room, what creates an open space.

My color-line with the pinkish color I used goes straight from the link upper edge down to the lower right edge. As an eye catching special I used a zebra printed blanket.

To save space I put a storage box under my bed and a couple of Drawers in my room. I also installed the closet in the wall and used slide doors for it.
